Seasonal Workamping for a Living - Natalie Flores-Henley 2020-04-29

"It is very informative and will be a valuable addition to anyone's library of workamping information." - Edith Cagle (Full-time RVer and Workamper) Are you dreaming of hitting the open road in an RV and traveling full-time but haven't quite figured out how you are going to fund your travels? It is absolutely possible! There are currently thousands of RVers exploring the country while making a living by working seasonal jobs. This group of people calls themselves workampers, and Natalie and Levi are among them. For almost 6 years, they have lived and worked in 11 states and funded those travels by working 20 jobs. In this book, they not only share the facts of how to look for and land a workamping job, but they talk about their personal experiences and inside knowledge of workamping. They detail how they went from living in a house with regular jobs to landing their first working job and how they have continued to travel and land job after job. Never in their wildest imaginations did they think that they would be behind the production lines of an Amazon warehouse, arranging holiday lights on the longest pedestrian suspension bridge in Gatlinburg, operating a piling machine in the wee hours of the morning while sugar beets shoot out into a 25-foot pile, displaying hundreds of pumpkins and Christmas trees for purchase, or serving one sample of wine after another to hundreds of bikers during a Sturgis Rally in South Dakota. They leave every new workamping experience with a broader skill set and a newfound appreciation for workers in these contrasting fields. What's in the Book: This book has four sections. The first section is their story, how they became full-time RVers and eventual seasonal workampers. The second section details jobs they have worked each season. The third part focuses on finding, applying for, and landing your first and next workamping jobs. Finally, section four answers questions and concerns regarding arriving at the job site, how workamping affects taxes, budgeting aspects, and lessons they have learned as seasonal workampers. At the end is a glossary of links so you can easily start searching for your first workamping job. Regardless if you are... new to seasonal workamping and need the resources and information to get your first workamping job or already a

seasonal workamper and are looking for some additional resources and tips for finding your next job ...Levi and Natalie share their story so they might just inspire you to go out on the open road and start your own workamping adventures!

Bandit Country - Toby Harnden 2010-03-10

South Armagh was first described as "Bandit Country" by Merlyn Rees when he was Northern Ireland's Secretary of State, and for nearly three decades it has been the most dangerous posting in the world for soldiers. Toby Harnden has stripped away the myth and propaganda associated with South Armagh to produce one of the most compelling and important books of the subject. Drawing on secret documents and interviews in South Armagh's recent history, he tells the inside story of how the IRA came close to bringing the British state to its knees. For the first time, the identities of the men behind the South Quay and Manchester bombings are revealed. Packed with new information, "Bandit Country" penetrates the IRA and the security forces in South Armagh."

Laughs & Love - Amaya Lewis 2022-02-23

Nya is a senior in high school in an environment where there are not many students who look like her as a Black Latinx woman but she finds her balance in the imbalance. She has made a very difficult decision, believing that in order to fit in and in order to be accepted by her white counterparts she must, "put on a show." She laughs at jokes that are racially motivated when she knows that they're inappropriate. She laughs when her "friends" ask her questions about being Black or being Latinx. She never corrects them when they say things that are offensive to her personally and they will say these things with her in the room and with no shame, she laughs. It isn't until her senior year when she must do a family tree for a history assignment that she realizes what she's doing undermines her family, that she loves. It's the first time in her life that she's ever actually sat down and had a conversation with her mother who was from the South and her father who is from South America. It is through these conversations that she realizes just how deep the blood in her veins runs and the decision is made that when she presents this family tree to her classmates, she is also going to present to them a new form of education. One that explains the things that are acceptable and the things that are not when they are speaking to her and about people like her. A very challenging story about how difficult it is for teenagers to belong in spaces that they don't feel like they can thrive in. Hopefully, this will educate students, teachers and parents alike. Having a sense of belonging for a teenager may be more important than what those of us on the outside looking in can conceive. A story of truly finding and accepting your identity even if that means that you find yourself standing alone, isolated, on an island. Finally having that sense of self for Nya makes it all worth it.

Business Banner Ads - Rwg Publishing 2020-11-06

Banner advertising has come a long way since its humble beginnings centuries ago. Yeah, that's right. Centuries flip through any old newspaper or publication from the American Colonial era, and you'll find rectangular banner ads pitching everything from beer to stockings, complete with the main image carefully chosen brand elements. Amado or a unique selling proposition. And even a call to action. Of course, we're not here to discuss old print banner ads for stylish powdered wigs or state of the art wooden dentures. Although it is useful to remember how long the ancestors of today's digital banner ads have been around in this guide, we're going to be discussing modern digital banner ads in all their glory. So for starters, what are they? Basically, banner advertisements are actionable, clickable tappable images that invite web visitors to buy, learn about, or receive something in exchange for a click through. These ads can appear anywhere and are typically seen within and around the content of various websites, such as the header area on a forum page, the

sidebar of a blog, or a news site, or even squeezed in among the paragraphs of a news article. These banner ads come in all shapes and sizes. Typically variations of the trusty old rectangle and will either be static or animated. In more recent years, some businesses have been leveraging rich media banner ads that do all sorts of wacky stuff like send a car, zooming across your screen in front of the article you were reading, and these ads aren't going anywhere soon. Banner ads still make up around 34% of all online ad spending. Second, only to search engine marketing. So since they've been around for hundreds of years and businesses are spending a ton on them every year, clearly they work. The question is should you be using them in your business? That's what we'll be looking at in the next video.
